

Jeannine was a great help to us during our recent kitchen “tune-up.”

Even though we were not doing a full-scale remodel, Jeannine was happy to guide us through the various steps and also gave us great creative design suggestions—even down to the cabinet hardware.

What’s more: She referred us to talented, reasonably priced contractors who were happy to meet the challenges of an older home and stay within our budget.

We definitely recommend Jeannine—especially if your project is small but significant!
